

Toffoli

Flexible Patterning
PERFECT FOR ANY GARDEN DESIGN

PLASPAVE SOLO-PAVE

There is something satisfyingly subtle, yet sophisticated, about the large element size and sharp clean lines of **TOFFOLI** Solo-Pave. It is quick and easy to lay and ideal for both driveways and terraces and its flexible laying patterns, including staggered stretcher bond and offset herringbone (shown here), means that **TOFFOLI** is the ideal choice for large areas of hard landscaping.
